MODEL: FD24

WORKSHOP

SERIES

### FEATURES

- **Industrial fan** that is built with heavier duty materials and components to operate longer and supply greater air flow and pressure.
- **Excellent for creating ventilation** in industrial and agriculture buildings.
- **Two speed motor** to optimizes air flow capability.
- **Aluminum blades** are extra wide and precision balanced to be able to move a high volume of air with low power consumption and noise.
- **Heavy duty frame** is made with cold rolled steel that has been powder coated for maximum durability.
- **Wheel kit** is wider than the body of the fan to create a stable base with pivot points that allows the fan to be tilted up to 180°. Handle makes it easy to move and reposition where needed.
